THE NEW JEFFERSON HOSPITAL  
OPENED JUNE, 1907

Accidents,	15,824
Admissions,	8,308
Dispensary, new cases,	27,564

1916.

REPORT  
OF THE  
JEFFERSON HOSPITAL

For year ending May 31, 1916

Thirty-ninth Year

GENERAL HOSPITAL  
Cor. 10th and Sansom Streets

MATERNITY HOSPITAL  
224 South 7th Street

MATERNITY DISPENSARY  
2545 Wharton Street

DEPARTMENT FOR DISEASES OF THE CHEST  
236-238 Pine Street

PHILADELPHIA

1916

THE JEFFERSON HOSPITAL receives the injured and sick irrespective of race, nationality or religion.

Patients desiring admission should apply at the Hospital between 8 A. M. and 5 P. M., or to any member of the Medical Staff.

Cases of recent accident occurring in Pennsylvania are admitted at any hour of the day or night.

The insane, and patients suffering from contagious diseases or alcoholism are not received; except when temporary relief is possible, incurable cases are not admitted.

The Maternity Department is located at 224 West Washington Square. Women are received and cared for during confinement, or attended at their homes.

The Department for Diseases of the Chest is located at 236 and 238 Pine Street. Patients with advanced pulmonary tuberculosis only are admitted to the wards.

## EMERITUS

### **Emeritus Physicians**

JOSEPH S. NEFF, M.D.,  
JAMES C. WILSON, M.D.,

### **Emeritus Surgeons**

W. W. KEEN, M.D.,  
W. JOSEPH HEARN, M.D.

## HONORARY

PROF. J. SOLIS-COHEN, M.D., *Honorary Laryngologist.*

## MEDICAL DEPARTMENT

### **Attending Physicians**

PROF. H. A. HARE, M.D.,

PROF. THOMAS McCRAE, M.D.,

PROF. S. SOLIS-COHEN, M.D.

### **Assistant Physicians**

JOHN C. DAcOSTA, JR., M.D.,  
F. J. KALTEYER, M.D.,  
E. Q. THORNTON, M.D.,

R. MAX GOEPP, M.D.,  
R. V. PATTERSON, M.D.,  
E. J. G. BEARDSLEY, M.D.

## SURGICAL DEPARTMENT

### **Attending Surgeons**

PROF. J. CHALMERS DAcOSTA, M.D.,

PROF. JOHN H. GIBBON, M.D.,

PROF. FRANCIS T. STEWART, M.D.

### **Assistant Surgeons**

CHARLES F. NASSAU, M.D.,

DUNCAN L. DESPARD, M.D.

EDWARD J. KLOPP, M.D.

### **Assistant Proctologist**

J. COLES BRICK, M.D.

## MATERNITY DEPARTMENT

### **Attending Obstetrician and Medical Director**

PROF. E. P. DAVIS, M.D.

### **Assistant Obstetricians**

STRICKER COLES, M.D.,

WILLIAM H. WELLS, M.D.,

GEORGE A. ULRICH, M.D.

## **GYNECOLOGICAL DEPARTMENT**

**Attending Gynecologist**

PROF. E. E. MONTGOMERY, M.D.

**Assistant Gynecologist**

JOHN M. FISHER, M.D.

## **OPHTHALMOLOGICAL DEPARTMENT**

**Attending Ophthalmologists**

PROF. H. F. HANSELL, M.D.,

PROF. WILLIAM M. SWEET, M.D.

## **LARYNGOLOGICAL DEPARTMENT**

**Attending Laryngologist**

PROF. D. BRADEN KYLE, M.D.

**Assistant Laryngologist**

FIELDING O. LEWIS, M.D.

## **OTOLOGICAL DEPARTMENT**

**Attending Otologist**

PROF. S. MACCUEN SMITH, M.D.

**Assistant Otologist**

E. L. KLOPP, M.D.

## **ORTHOPEDIC DEPARTMENT**

**Attending Orthopedic Surgeon**

PROF. H. AUGUSTUS WILSON, M.D.

**Assistant Orthopedic Surgeon**

ARTHUR J. DAVIDSON, M.D.

## **PEDIATRIC DEPARTMENT**

**Attending Pediatricist**

PROF. E. E. GRAHAM, M.D.

**Assistant Pediatricist**

JULIUS BLECHSCHMIDT, M.D.

## **DERMATOLOGICAL DEPARTMENT**

**Attending Dermatologist**

PROF. HENRY W. STELWAGON, M.D.

**Assistant Dermatologist**

HENRY K. GASKILL, M.D.

## **NEUROLOGICAL DEPARTMENT**

**Attending Neurologist**

PROF. F. X. DERCUM, M.D.

**Assistant Neurologist**

GEORGE E. PRICE, M.D.

## **GENITO-URINARY DEPARTMENT**

**Attending Genito-Urinary Surgeon**

PROF. H. R. LOUX, M.D.

**Assistant Genito-Urinary Surgeon**

T. C. STELLWAGEN, JR., M.D.

## **X-RAY DEPARTMENT**

**Attending Roentgenologist**

WILLIS F. MANGES, M.D.

**Assistant Roentgenologist**

D. R. BOWEN, M.D.

## **PATHOLOGICAL DEPARTMENT**

**Pathologist and Director of the Laboratories**

PROF. W. M. L. COPLIN, M.D.

**Assistant Pathologists**

ALLER G. ELLIS, M.D.,

DAVID M. DRY, M.D.

## **DEPARTMENT OF RADIUM-THERAPY**

**Radium-Therapist**

WILLIAM S. NEWCOMET, M.D.

## **PATHOLOGICAL CHEMIST**

PROF. HENRY LEFFMAN, M.D.

## **PHYSIOLOGICAL CHEMIST**

PROF. P. B. HAWK.

## **BACTERIOLOGIST**

PROF. RANDLE C. ROSENBERGER, M.D.

# Out-Patient Departments

## MEDICAL DISPENSARY

### DIVISIONS A AND B

Daily, 12 o'clock, noon.

#### Attending Physicians

PROF. H. A. HARE, M.D.,  
PROF. THOMAS McCRAE, M.D.

#### Chief Clinical Assistant

E. J. G. BEARDSLEY, M.D.

#### Clinical Assistants

W. S. LUCAS, M.D.,	J. D. LEHMAN, M.D.,
B. B. VINCENT LYON, M.D.,	J. Q. THOMAS, M.D.,
G. H. CLAPP, M.D.,	HENRY A. STRECKER, M.D.,
CHARLES J. CAVANAGH, M.D.,	SIGMUND S. GREENBAUM, M.D.,
WILLIAM F. MOORE, M.D.	

### Sub-Division Medical Dispensary

#### Department for Diseases of Stomach and Intestines

B. B. VINCENT LYON, M.D.

### DIVISION C

Daily, 2.30 P. M.

#### Attending Physician

PROF. S. SOLIS-COHEN, M.D.

#### Chief Clinical Assistant

JOHN A. RODDY, M.D.

#### Clinical Assistants

H. S. BUCKINGHAM, M.D.,	J. M. CRAIG, M.D.,
DAVID W. KRAMER, M.D.,	C. HENRY LEFCOE, M.D.,
A. GORDON, M.D.	

## DISPENSARY FOR DISEASES OF THE CHEST

236-238 Pine Street.

Daily, 11 A. M.

#### Attending Physician

PROF. THOMAS McCRAE, M.D.

#### Medical Director and Physician in Charge

ELMER H. FUNK, M.D.

#### Clinical Assistants

HARRY S. HALPERN, M.D.,	LEON SOLIS-COHEN, M.D.,
NATHAN BLUMBERG, M.D.,	F. S. BURWELL, M.D.,
ROBERT M. LUKENS, M.D.,	MAUDE A. BOWYER, M.D.,
MARCUS W. NEWCOMB, M.D.,	FRANK M. DYSON, M.D.

---

Out-Patient Departments are not open on Sundays and Holidays.

## **SURGICAL DISPENSARY**

### **DIVISION A**

Monday, Wednesday, Friday, 12 o'clock, noon.

#### **Attending Surgeon**

PROF. J. CHALMERS DACOSTA, M.D.

#### **Chief Clinical Assistant**

W. P. HEARN, M.D.

#### **Clinical Assistants**

HARVEY M. RIGHTER, M.D.,	FRANK C. ABBOTT, M.D.,
HUBLEY R. OWEN, M.D.,	PATRICK A. MCCARTHY, M.D.,
WARREN B. DAVIS, M.D.,	EDWARD A. SCHUMANN, M.D.,
THOMAS A. SHALLOW, M.D.,	LEON SOLIS-COHEN, M.D.

#### **Anesthetists**

JOHN F. X. JONES, M.D.,                      WARREN B. DAVIS, M.D.

#### **Registrar**

H. LEOPOLD.

### **DIVISION B**

Tuesday, Thursday, Saturday, 12 o'clock, noon.

#### **Attending Surgeon**

PROF. JOHN H. GIBBON, M.D.

#### **Chief Clinical Assistant**

ARTHUR E. BILLINGS, M.D.

#### **Clinical Assistants**

E. G. ALEXANDER, M.D.,	ERNEST G. MAIER, M.D.,
LOUIS CHODOFF, M.D.,	JOHN J. WILEY, M.D.,
L. F. MULFORD, M.D.	JOHN B. FLICK, M.D.,

#### **Anesthetists**

ERNEST G. MAIER, M.D.,                      LOUIS CHODOFF, M.D.

#### **Masseuse**

Miss M. K. HAAS.

### **DIVISION C**

Daily, 5 P. M.

#### **Attending Surgeon**

PROF. FRANCIS T. STEWART, M.D.

#### **Chief Clinical Assistant**

E. J. KLOPP, M.D.

#### **Clinical Assistants**

C. D. SMITH, M.D.,	WILLIAM SWARTLEY, M.D.,
HENRY P. BROWN, JR., M.D.,	C. W. McCONIHAY, M.D.,
	W. H. HAINES, M. D.

#### **Anesthetists**

C. D. SMITH, M.D.,                      HENRY P. BROWN, JR., M.D.

#### **Masseuse**

MRS. ELLEN PETERSEN.

### **SURGICAL DISEASES OF THE RECTUM**

#### **Assistant Proctologist**

J. COLES BRICK, M.D.

---

Out-Patient Departments are not open on Sundays and Holidays.

## MATERNITY DISPENSARY

224 South 7th Street.  
Daily, 12 o'clock, noon.

2545 Wharton Street.  
Daily, 3 P. M.

### Attending Obstetrician and Medical Director

PROF. E. P. DAVIS, M.D.

### Assistant Obstetricians

STRICKER COLES, M.D.,                      WILLIAM H. WELLS, M.D.,  
GEORGE A. ULRICH, M.D.

### Clinical Assistants

COLLIN FOULKROD, M.D.,                      W. F. SEABOLD, M.D.,  
L. STROUSSE, M.D.,                      FRANCIS J. McCULLOUGH, M.D.,  
HARRY STUCKERT, M.D.

## GYNECOLOGICAL DISPENSARY

Daily, 12 o'clock, noon.

### Attending Gynecologist

PROF. E. E. MONTGOMERY, M.D.

### Chief Clinical Assistant

P. BROOKE BLAND, M.D.

### Clinical Assistants

ALFRED HEINEBERG, M.D.,                      HARRY STUCKERT, M.D.,  
C. M. STIMSON, M.D.,                      FRANK H. HUSTEAD, M.D.

### Anesthetist

F. R. WIDDOWSON, M.D.

### Pathologist

HARRY J. HARTZ, M.D.

## OPHTHALMOLOGICAL DISPENSARY

Daily, 2.30 P. M.

### Attending Ophthalmologists

PROF. H. F. HANSELL, M.D.,  
PROF. WILLIAM M. SWEET, M. D.

### Chief Clinical Assistants

J. C. KNIPE, M.D.,                      C. E. G. SHANNON, M.D.

### Clinical Assistants

C. R. HEED, M.D.,                      J. S. FRITCH, M.D.,  
O. G. FEGLEY, M.D.,                      H. E. KEELY, M.D.,

C. B. BRIDGETT, M.D.

### Registrar

J. LAVELLE.

---

Out-Patient Departments are not open on Sundays and Holidays.

## LARYNGOLOGICAL DISPENSARY

Tuesday, Thursday, Saturday, 12 o'clock, noon.

### Attending Laryngologist

PROF. D. BRADEN KYLE, M.D.

### Operating Chief

FIELDING O. LEWIS, M.D.

### Chief Clinical Assistant

WILLIAM H. DEARDORFF, M.D.

### Clinical Assistants

H. HUNTER LOTT, M.D.,

I. G. SIEBER, M.D.,

A. SPENCER KAUFMAN, M.D.,

ROBERT M. LUKENS, M.D.,

R. H. DENGLER, M.D.,

ARTHUR J. WAGERS, M.D.,

MARION HEARN, M.D.,

THOMAS E. LONGSHAW, M.D.

## OTOLOGICAL DISPENSARY

Monday, Wednesday, Friday, 12 o'clock, noon.

### Attending Otologist

PROF. S. MACCUEN SMITH, M.D.

### Chief Clinical Assistant

J. CLARENCE KEELER, M.D.

### Clinical Assistants

A. SPENCER KAUFMAN, M.D.,

M. HEARN, M.D.,

DAVID NUSSBAUM, M.D.,

FIELDING O. LEWIS, M.D.,

ARTHUR J. WAGERS, M.D.

---

Out-Patient Departments are not open on Sundays and Holidays.

## ORTHOPEDIC DISPENSARY

Tuesday, Thursday, Saturday, 11 A. M.

### Attending Orthopedic Surgeon

PROF. H. AUGUSTUS WILSON, M.D.

### Chief Clinical Assistant

ARTHUR J. DAVIDSON, M.D.

### Clinical Assistants

JAMES R. MARTIN, M.D.,

HOWARD K. LONGSHORE, M.D.

### Directress of Orthopedic Gymnastics

MISS ALICE SIDDALL.

### Mechanicians

EMIL GEFVERT,

OSCAR GEFVERT.

## PEDIATRIC DISPENSARY

Daily, 12 o'clock, noon.

### Attending Pediatricist

PROF. E. E. GRAHAM, M.D.

### Chief Clinical Assistant

JULIUS BLECHSCHMIDT, M.D.

### Clinical Assistants

S. G. SHEPHERD, M.D.,

JOSEPH FLEITAS, M.D.,

# The Year's Work

## A SUMMARY

Patients admitted, 8,308

Patients treated, 8,616

Surgical operations, 4,686

The Maternity has administered to 2,334 women ; 447 babies

The Department for Diseases of the Chest has admitted 220 patients to wards and 2,418 visits were made to the Dispensary

Dispensaries, 27,564 patients ; 115,250 visits

Prescriptions filled in Dispensary Drug Store, 30,422

In all public departments, 48,800 patients

Average patients per day in all public departments, 699

ONE OF THE MEDICAL WARDS

## The Jefferson Hospital

The year ending May 31, 1916, with which this report deals, completes the 39th year of the activities of the Jefferson Hospital. The report of this year, as those of previous years, shows that the Hospital with increasing regularity each succeeding year has been called upon to administer to a larger number of sick and injured.

The new and larger Jefferson Hospital which opened its doors for the reception of patients June 24, 1907, has during its nine years of existence admitted to the Hospital 55,985 patients who have received 876,377 patient days' treatment; 88,143 were treated in the Emergency Ward and the Dispensary afforded 1,012,460 consultations to 216,303 patients. Of the patients admitted to the wards of the institution 80.5 per cent. were treated and cared for free and the remaining 19.5 per cent. contributed approximately one-half of their cost of maintenance.

The average daily cost of the care and treatment per ward patient for the past nine years in the new Hospital was \$1.88. The number of free days' treatment given to the ward patients during this time amounts to 665,879. The actual cost to the Jefferson Hospital for free treatment given to ward patients during the past nine years equals \$1,251,852.52. This sum does not include the enormous amount of free treatment given in the Emergency Department and in the Dispensary.

### Gifts During Past Year

The Maternity Committee of the Women's Auxiliary of the Jefferson Hospital raised \$5,000 to endow a bed in perpetuity at the Maternity Department to the memory of Gladys Crompton—Mrs. Paul Crompton—who, with her husband and six children, suffered death on the fateful Lusitania. For nine years she was a most earnest and faithful worker on the Maternity Committee and it was largely due to her ability and work that the Maternity Dispensary at 2545 Wharton Street was established.

Miss Anna J. Magee contributed \$5,000 to the Jefferson Hospital to endow a bed in perpetuity in the Jefferson Hospital to the memory of her father, James Magee.

The will of Samuel Betton bequeathed to the Jefferson Hospital \$10,000 to endow two beds in the Children's Ward in memory of his sons, to be known as the Samuel Betton, Jr., and Edward Betton Memorial Free Beds.

Mrs. Lucy B. Henderson, who by her beneficence has made possible a department of Radium-therapy in the Jefferson Medical College and Hospital, has further increased her contributions by \$5,000. The department is very active in the clinical application and laboratory investigation with radium as a therapeutic agent in the treatment of cancer and other diseases. It is hoped that others interested in this branch of medical research will see fit to increase the resources of this department and thereby further extend the application of radium to suffering humanity afflicted with the dreaded disease.

The Jefferson Hospital (Nurses' Home), as one of the beneficiaries of the Annual Charity Ball, received \$2,300.

### **Work of the Past Year**

A summary of the statistical report of the various departments of the Hospital shows that every department has been called upon to do an additional amount of work. Readers familiar with Hospital work appreciate the fact that mere figures do not indicate the amount of work. Each year through medical research, more thorough and exhaustive methods of the study and treatment of disease are applied. During the year 8,308 patients were admitted to the Hospital as compared with 7,725 patients in the previous year, an increase in number of 7.5 per cent. The 8,308 patients received 124,558 days' treatment as compared with 122,962 days' treatment in the previous year.

In the surgical operating rooms 4,686 operations were performed.

## Wards

The number of patients admitted to the public wards during the past year was 5,412 as compared with 5,043 in the previous year. When a patient stays one day in a Hospital it is called a "Patient's Day Treatment." Three hundred patients staying 20 days ( $300 \times 20$ ) yields 6,000 patient days' treatment. If they pay a part, say one dollar per day, of the cost of their treatment, it is called a "Part Pay Patient Day."

## Charitable Work Being Done

DURING THE PAST YEAR 80.5 PER CENT. OF THE PATIENTS ADMITTED TO THE PUBLIC WARDS WERE FREE. The number of free patients was 4,508; the average stay of each patient was 18.7 days, equalling 81,809 "free patient days' treatment." A free patient day's treatment costs the institution \$1.79 and 81,809 days require \$146,438.11 for maintenance. These figures do not include the 15,824 patients treated in the Emergency Ward, and the 27,564 patients who made 115,250 visits to the Dispensaries.

The Hospital Committee of the Board of Trustees, desiring that the charitable services of the Hospital should further be extended to the deserving poor, arranged the plan of having the Social Service workers interview all ward patients or their friends on admission and the information thus obtained recorded on a blank for this purpose. The custom heretofore, as in most hospitals, was only to care for ward cases referred to the Social Service Department by physicians, and hence many who would not discuss their social needs with the physician did not receive the help of the Social Service Department.

This preliminary interview with a Social Service Worker, together with subsequent visits to the wards, injects into the patient's reception and relations with the Hospital a sense of personal interest and makes the patient feel that the Hospital is interested in his social problems to the same extent as in his physical illness. Indeed not infrequently the illness is precipitated by a social condition which when properly disposed

of results in greatly improving or entirely remedying the illness.

The Hospital is also able to determine from the data obtained whether the patient is deserving of free treatment.

The result of this system is that the number seeking free treatment who are able to pay, in part, for their care is reduced to a minimum and charity given only to the deserving.

### **Private Floor Service**

Patients desiring the exclusion or luxury of a private service may obtain in the Jefferson Hospital a room with or without bath, single or en suite, and so arranged that visiting relatives or friends may occupy apartments immediately adjacent to the patient.

Electro-therapeutic and hydro-therapeutic treatments, private reception rooms and parlor, roof garden, private operating room, sun parlor, diet kitchen and facilities for private care of maternity cases are also available.

Special nurses are supplied at reasonable rates, the Hospital making no extra charge except for board. The Hospital is equipped to care for eighty-six private and semi-private patients.

The private floor service has been more in demand during the past year than at any time in the history of the Institution. The question of affording a service on the plan "of a large hotel for the sick" is no longer an experiment, as has been proven by the demand for this kind of service.

The number of private room patients admitted during the past year was 2,896 as compared with 2,682 in the previous year.

Each succeeding year will find the public making an increased demand for private rooms in hospitals.

### **"Out-Patient Departments"**

The Out-Patient Departments have been consulted by 27,564 patients who made 87,686 revisits—totalling 115,250 visits to the Out-Patient Departments during the past year.

PRIVATE ROOM

New quarters were constructed in the basement of the Nurses' Home and occupied on January 1, 1916, by the Departments of Clinical Medicine, Neurology and Orthopedics. The floor space in the new location is more than twice that in the old location.

The rooms vacated by the Departments of Clinical Medicine, Orthopedics and Neurology when alterations are completed will be occupied by the Louis Clark Vanuxem Memorial X-Ray Department.

A department for the study and treatment of gastrointestinal diseases has been in successful operation more than a year. It was found necessary, in order to care for the increasing number of patients applying, to increase the hours of the Clinic.

The Social Service Department has extended its work during the past year so that now a Social Service worker will be found in the Children's, Medical, Orthopedic, Clinical Medicine Departments, Department of Gastro-Intestinal Diseases, Department for Diseases of the Chest (2).

Social service work is indispensable in connection with out-patient work in obtaining the best results both for patient and physician.

### **Provisions for the Professional Care of Patients**

The fifteen departments of the Jefferson Hospital, including the dispensaries, are under the immediate supervision of 23 members of the visiting staff and over 135 assistants.

The Resident Staff comprises 16 physicians, including a Chief Resident Physician. Nursing is supplied by a Directress of the Training School, Assistant Directress, 13 Graduate Nurses and 112 Pupil Nurses.

The institution maintains two fully equipped pharmacies at the general hospital and one at the Department for Diseases of the Chest, supervised by two registered managers and three qualified assistants. The magnitude of this service may be appreciated when it is stated that, exclusive of the house and operating room service, 30,422 prescriptions were filled last year.

The Jefferson Hospital maintains two automobile ambulances which respond to calls received from every section of the city and suburbs. Patients coming from a distance are speedily conducted to the Hospital.

### **Department for Diseases of the Chest**

The Department for Diseases of the Chest was acquired in 1913 by the purchase of the buildings formerly occupied by the Henry Phipps Institute and located at 236-238 Pine Street. These buildings were completely renovated and modernized at a cost of over \$20,000, and in their present condition afford every facility for the efficient care of patients suffering with diseases of the chest. The new department contains ample space for dispensary treatment of ambulatory cases, while the wards provide forty beds which are devoted to the care of those suffering with advanced pulmonary tuberculosis.

The work of the department deals largely with the general problem of tuberculosis. The need for such a department doing this sort of work must be evident when it is recalled that one in every ten persons dies from tuberculosis, and in the State of Pennsylvania alone 9,000 persons die annually from this disease. The incontrovertible fact that the Department for Diseases of the Chest of Jefferson Hospital is fulfilling a need of the community is evidenced by the long waiting list of patients applying for admission to its wards, which have been filled to capacity since the opening. One of the fundamental methods which authorities agree is necessary if we are to make any headway whatever in the control of the "Great White Plague" is the isolation and segregation of the advanced indigent and dangerous consumptive.

For this purpose there is a total lack of hospital facilities in the State of Pennsylvania. The Board of Trustees of Jefferson Hospital, always anxious that the institution should take an active part in matters of public health, and realizing fully that special tuberculosis work meant added financial responsibility—a responsibility all the more weighty in view of the current deficit in its funds—felt that so important a

ONE OF THE WARDS AT THE DEPARTMENT FOR DISEASES OF THE CHEST

community need should be considered, and proceeded with organization of the department in the hope that the State of Pennsylvania and private benefactors would contribute toward its support.

The work is a charity in its truest meaning, and its scope, like that of the general hospital, is limited only by the funds available. In addition to the medical care of the patient in the wards and in the dispensary, the home condition is investigated by trained nurses and workers acting under the direction of the Social Service Department. The members of the family not yet victims of the disease are given directions to secure their health. Those exposed to the patient are directed to report to the dispensary for examination to discover incipient cases. When incipient cases are found sanatorium care is arranged for. Arrested cases are taught how to prevent relapses. The abnormalities of environment which predispose toward disease are corrected.

The activities of this department are humanitarian in the widest sense. During the past year 220 patients were cared for in the wards; 13,625 patient days' treatment were administered and 2,418 dispensary visits were made by out-patients.

Because of the lack of funds the department was compelled to close the wards during the summer months, however, with a continuance of the Dispensary and Social Service Department. During the nine months the wards were open 220 patients were admitted, receiving 8,771 days' treatment.

Maternity Department

MATERNITY DEPARTMENT  
The Nursery

## Medical Report of the Maternity Department Jefferson Hospital

For the Year Ending May 31, 1916

SITUATION OF THE MATERNITY DEPARTMENT. The Maternity Department of the Jefferson Hospital (The Jefferson Maternity) is situated at 224 South Seventh Street, near the corner of Locust and Seventh Streets, on West Washington Square. Its telephone is Bell, Walnut 494, and a direct wire connects it with the Jefferson Hospital, Filbert 2510. The Jefferson Hospital ambulance answers its calls.

The Maternity is open day and night throughout the year to women who are pregnant and ill, or about to be confined, or suffering from the accidents and injuries following confinement, or who desire to consult a physician. Newly born infants not afflicted with contagious diseases are received. Sundays excepted, between 12 and 1, mid-day, members of the Staff are present at the Maternity daily to consult with patients who desire attendance in their homes or wish to enter the Maternity. Emergency cases and patients in labor are received at any time of the day or night.

THE OUT-PATIENT DEPARTMENT of the Jefferson Maternity carries on its charitable work in the lodgings of the poor, among those who cannot enter the wards. Many married women having children cannot go away from home for confinement, and must receive attention in their houses.

DAILY CLINIC: HOURS FOR ADMISSION: Daily, except Sunday, from 12 to 1, members of the Staff of the Maternity with the Obstetric Resident are present at the Maternity to advise patients and to arrange for their care during confinement. The Medical Director sees cases referred to him at other hours.

In emergencies, patients may receive needed information at any time, and can at any hour of the day or night secure the services of a physician by personal application, or by communicating with the Maternity. Emergency cases are received at any time, and when necessary an ambulance or a physician will be sent for cases requiring immediate help.

THE JEFFERSON MATERNITY DISPENSARY. At 2545 Wharton Street (26th and Wharton) the Maternity Department of the Jefferson Hospital has a Maternity Dispensary. A daily clinic, from 3 to 4 P. M., except Sunday, is held, and advice and help given to pregnant patients, to those who have had children, and to those who wish help in caring for young infants. There are accommodations in the building for two physicians, and two students, acting as assistants to the Dispensary Staff, sleep at the Dispensary to answer night calls and attend cases in the houses of patients.

IN-PATIENT AND OUT-PATIENT WORK. The number of cases admitted to the wards of the Maternity varies each year only in proportion with the character of the cases. Where patients are admitted with some serious condition, their convalescence lasts much longer and they occupy space which prevents the admission of other patients. As our space is always in demand, this naturally lessens the number of cases we are able to treat in a given year.

During the past year we have had an unusual number of patients admitted in a serious condition; placenta praevia, rupture of the uterus, septic infection, and injury from repeated attempts at delivery, and cases in convulsions or threatened with convulsions have been brought for our care. The mortality and morbidity among these mothers is inevitably considerable, and many of the children are dead or dying on admission.

During the past year the number of mothers admitted to the wards of the Maternity was 269; the number of children, 30. Eleven hundred and twenty-one mothers applied for advice or treatment at the Maternity, and in many cases pre-natal care and advice were given. In the Out-Patient Service 944 mothers applied for medical attention.

In the Maternity 217 children were born, and in the Out-Patient Service of the Maternity 200 children received attention. Total number of patients under the care of the Maternity, 2781.

During the past year 75 operations of various sorts were performed.

In the wards of the Maternity during the past year occurred 9 deaths, pneumonia, exhaustion from placenta praevia, eclampsia, and septic infection which had developed before admission, and a moribund condition being the causes of death. No death occurred in patients admitted in good condition.

Among the complicated cases which recovered were placenta praevia, eclampsia, hemorrhage, contracted pelvis, and abnormal positions and presentations.

Owing to limited space those patients who are in normal condition, and have good surroundings are encouraged to remain at home, being attended by our Out-Patient Staff and visiting nurses. The limited space of the Maternity is reserved as far as possible for patients requiring especial attention.

The sterilizing plant installed by the Trustees continues to do excellent work, and provides not only articles needed for the Maternity wards, but also for work in the Out-Patient Department. This apparatus has been thoroughly gone over and repaired during the year. A new incinerator in which all soiled dressings are burned has replaced the old one. The separate cribs in the nursery have proved efficient in preventing the spread of infection among infants, and their arrangement has made the work of the nurses and nursery maids as efficient as possible. By constant attention to the cleanliness of walls, ceilings and floors, and efficient sterilization, infection has not arisen in the wards or operating rooms of the Maternity.

THE WHARTON STREET DISPENSARY: During the past year 585 mothers and 576 children received attention at the Wharton Street Dispensary, the total number of patients treated reaching 1,161. This is an increase of between 40 and 50 per cent. over the work of the preceding year.

Among the mothers most of the confinements were normal, but complicated cases were sent to the wards of the Maternity. There was no maternal death. There were three premature births, ten children were stillborn, and two deaths occurred among infants. The low death rate in the Out-Patient Service of the Dispensary represents spontaneous

births without undue interference. The death rate of the Maternity wards represents the mortality of cases examined by general practitioners who have practiced delay or undue interference, or the mortality rate of patients previously diseased before becoming pregnant.

**VISITING NURSES.** The Visiting Nurse for the Wharton Street Dispensary since its establishment is widely recognized as the valued friend of those who live about the Dispensary. Her services are of inestimable value not only in a medical way, but in the general good which she does to those who live in that region. Some idea of the magnitude of her work may be gained from the fact that during the year she made 3,719 calls in addition to her daily work in the clinic.

The work of the Visiting Nurse at the Maternity Department of Jefferson Hospital covers a wide territory, as many of her patients are at considerable distances from the Maternity. She is universally appreciated by her patients and by physicians, and during the past year made 1,990 calls. Her patients gladly coöperated with the work of the Maternity and contributed 75 per cent. of her carfare during the year.

**THE LIMIT OF OUR IN-DOOR WORK.** The limited space at our disposal has placed a numerical limit on the In-Door work of the Maternity, and we are obliged to keep this space as far as possible for complicated and difficult cases which especially demand hospital care. We are often obliged to refer others whom we should like to assist to other hospitals. During the past year many complicated and difficult cases have been brought to us by ambulance at the request of outside physicians. On Easter Sunday a woman was brought from the Jersey shore by rail in a critical condition from hemorrhage, requiring immediate operation. We were fortunately able to save her life. Some of the patients coming to the city from a distance are fatally ill on admission. We are always glad to do our best for all cases, but the mortality and morbidity of parturition would be greatly lessened if complicated cases of parturition were sent to hospitals at the earliest sign of trouble. Every hour's delay adds greatly to the patient's risk.

The faithful work of the House Staff, and especially its nurses, has prevented the spread of infection although some patients have been infected when admitted. To the constant vigilance of the nurses and attending Staff is due the fact that in our limited quarters infection admitted to the house has not spread. We have no fixed time for the discharge of patients, and it is not our effort to have the greatest number of confinements possible, but to secure the best result in each case. Many of our patients need prolonged care to complete convalescence, because of their debilitated condition on admission. Until our space is increased we are obliged to select only those cases most deserving of our efforts.

The Wharton Street Dispensary gave practical instruction to 123 students during the year, who acted as assistants to the Visiting Staff. Their work was satisfactory to the patients and of great benefit to the Graduating class.

The medical work of the Maternity is of direct service to the public in four ways:

First, it gives to poor mothers who have unusual complications and diseases during pregnancy or confinement or after childbirth the advantages of modern science. One can obtain an idea of how great this benefit is when we remember how serious a matter confinement is among the poor, and how especially helpless such women are at this time.

Practical clinical training is given to physicians in this branch of science. As education advances, the lives and health of patients are benefited in direct proportion, and the welfare of the nation depends on the lives and health of its people.

Practical training for nurses has resulted in a vast improvement in this branch of medicine. One has only to contrast the lack of cleanliness, of thoroughness and knowledge in the old untrained nurses, with the good care of the present day, to appreciate the difference. The Obstetric experience gained by the Jefferson nurses is especially valuable not only in the care of natural birth, but in unusual cases requiring unusual methods of treatment. Graduates of the Jefferson Training School have been especially successful in private Obstetric practice for this reason.

THE WORK OF THE MATERNITY FROM ITS SOCIOLOGICAL ASPECT. Our Visiting Nurses have extended the medical work of the Maternity in its broadest and best sense. As they come in contact with the poor at times when help is most needed and appreciated, they obtain a personal influence which enables them to help in the various concerns of their patients. Their visits are satisfactory and gratifying, and patients have shown their appreciation by kind and courteous treatment so soon as the real purpose of the nurse's visits were made known.

As they could patients have made return by carfare or in other ways for this service. The distrust which those who do not understand our language sometimes show, when we attempt to help them, has speedily disappeared when the work of the nurse made evident the purpose of her visit.

The Maternity is in constant coöperation with the Social Service Department of the General Hospital, and we find them a most valued helper.

Our limited space permits us to train but two young women as nursery maids at one time. The demand for them is far in excess of the supply, and every effort is made to select and train them carefully. They do not obtain a diploma until they have been one year in private work with satisfaction. It is sometimes difficult to obtain the best persons for this training, but the number of applicants steadily increases.

In the small overcrowded Maternity, lacking many of the conveniences of modern hospitals, the successful performance of modern Obstetric work reflects great credit upon the patience and faithful industry of its attending and nursing staff.

EDWARD PARKER DAVIS,  
*Medical Director.*

NURSERY-MAID

## **The Jefferson Maternity Trained Nursery-Maids**

**Founded 1895**

These maids are graduates of a course of four months' training in the Maternity Department. They are admitted to the course only after a careful examination of their characters, dispositions and physical conditions, and must be not less than eighteen years old.

Their training covers the care of infants of all ages, including older children, and requires neatness, absolute cleanliness and obedience, qualities essential in nursery-maids of a higher order.

### **Duties of a Nursery-Maid**

After a nursery-maid has completed her course of training and has been found thoroughly satisfactory in every respect, and fully competent to take charge of a baby or an older child, she is recommended for a position, on the understanding that she will faithfully perform all her duties and conform to the following regulations:

Among her duties will be: The preparation of the baby's food in accordance with written directions from the attending physician, parent or some other responsible person; the care of the child; the care of the bottles; the washing of the baby's flannels and diapers.

She must wear her uniform, consisting of a wash dress, cap, collar, and apron with strings, bib and straps. The color and material of her dress may be that of a Jefferson trained nursery-maid (blue-checked gingham) or white, at the discretion of her future mistress. The uniform is adopted in order to dignify the position, and to show that the maid has completed a course of recognized training.

Absolute neatness and cleanliness of person is required.

She must understand plain sewing and mending.

The nursery-maid shall not leave a place without giving two weeks' notice and can require the same for herself from her mistress.

The nursery-maid, although receiving her treatment at an authorized training school for nursery-maids, must not forget

that she is a maid, though of high class, and must conform to the customs and rules for the maids in the households in which she may be placed, such as eating in the kitchen, taking her day out, etc.

The wages of the nursery-maid shall be twenty-five dollars (\$25) a month, for the first year after leaving the Maternity.

Applications for nursery-maids should be made to a member of the Committee, or to Miss Martin, Head Nurse of the Maternity Department of the Jefferson Hospital, 224 South Seventh Street. If the maid proves satisfactory, a fee of not less than five dollars (\$5) is, at the end of one month, payable to the chairman of the Committee. This fee is for the benefit of the Maternity Department. No fee is charged the nursery-maids.

Since April, 1904, total number of nurse-maids trained and on record, 121. Of these, 8 have been dismissed as unfit. Twenty-four have kept in communication with the Committee and are on record as now working successfully in private houses. Others have married, some have taken up other occupations, and some have not reported since leaving the Maternity. It is difficult to find reliable and competent young women well fitted for the important and responsible work of caring for young children.

During 1915 there were 168 applications for nursery-maids, and 18 positions were filled. Twenty-nine young women applied for training. Six nursery-maids were graduated; 11 graduated nursery-maids returned for new positions.

It is the custom of the Committee to give diplomas only to nursery-maids who prove their fitness by one year's successful work in private families after leaving the institution. During the past year, under these terms, diplomas were given to four nursery-maids.

<i>Committee</i>	{	MRS. JAMES S. ROGERS, <i>Chairman</i> ,

First Presbyterian Church, flowers.

National Plant Flower and Fruit Guild, flowers.

Mrs. Edward P. Davis, flowers.

## **Fourth Annual Report of the Social Service Department**

### **Staff of Social Workers**

MISS M. LOUISE POST,  
Director of Social Work.

MISS ANNA CONRAN,  
Ward Worker.

MISS HELEN BOLGER,  
Medical Clinic.

MISS RUTH WOODWARD,  
Admission Desk Worker (for  
four months).

MISS GERTRUDE BLUNT,  
Stomach Clinic and Clinical Medi-  
cine.

MISS CECIL SMITH,  
Orthopedic Clinic (Substitute).

MISS MARGARET KANE,  
Children's Ward and Clinic.

### **DEPARTMENT FOR DISEASES OF THE CHEST**

Ward and Clinic Workers,  
MISS ELEANOR FINCKEN,  
MRS. M. H. MAULL.

Secretary,  
MISS MABEL BENEZET.

The most significant development during the year has been an enormous increase in the number of patients assisted and the diversification of the work which has been brought about by a closer coördination of the Social Service with the other departments of the Hospital.

On February 1, 1916, at the request of the Hospital Committee of the Board of Trustees was begun the work of interviewing and admitting through the Social Service Department of 1,000 consecutive patients to the wards of the Hospital. This new activity necessitated the appointment of an additional worker. A critical analysis of the 1,777 cases disposed of to date clearly establishes the great advantage to both patient and Hospital of this arrangement. A natural, agreeable and valuable relationship is made possible between patient and social worker, not identified in the patient's mind with charity. Domestic, industrial and financial conditions bearing important relation to admission, diagnosis and treatment of the patient or the physical welfare of his or her dependents

which heretofore have not been disclosed, are now cared for. Admission of the destitute has been made easier for them; financial burdens incident to the stay in the Hospital have been more equitably arranged. Duplication of history keeping and record taking has been eliminated.

Of 1,000 cases admitted, 572 were found unable to pay.  
406 were found able to pay \$1  
a day  
276 paid this charge  
17 paid in part  
100 failed to pay  
13 were industrial cases, of  
which  
5 settled, 8 are under advise-  
ment  
22 were readmissions

Although the investigation was made to ascertain to what extent patients able to pay were not doing so, the social conditions predominated in the minds of the workers and housing conditions and the health of each member of each family were inquired into and where illness was found, the case, if not under the care of a private physician and not able to pay for the services of one, was brought into the proper clinic of the Hospital. The policy of the Hospital has been broad rather than stinted, giving freely rather than withholding and resolving all reasonable doubt in favor of the patient. This policy has been impressed upon the social workers and is carried out in a broad charitable spirit. This general plan naturally aids the delinquent and frequently works to the financial prejudice of the institution. In determining the propriety of charging, the patient is given the benefit of every reasonable doubt and never is a questionable decision made in favor of the institution. Every possibility of causing an undue burden to the patient is eliminated. In making a decision, the standard of living is fixed at what it should be, rather than what it actually is, and care is exercised that the suffering of the patient is not increased by the care and worry of meeting additional harassing and vexatious financial obligations.

The worker in the Hospital wards takes all cases referred by the admission desk, or by the physicians, who, after the patient is admitted, find need for social service. No effort has been made to specialize in certain types of disease, due to lack of ward workers to do such work.

Every patient entering the Medical Dispensaries during the past year has been interviewed by a social worker before being allowed to consult the physician. In this department the question of dispensary abuse has been minimized by the worker deciding whether the applicant is deserving of charity. All patients under the care of a private physician are required to bring a letter from him stating his willingness to have the patient under the Hospital's care. It is felt that this friendly coöperation with the family physician has added to the efficiency of the department. By this means the department has been able to learn many valuable facts obtainable in no other way.

Following the medical diagnosis the physician refers the patient to the social worker for friendly advice and assistance. Physicians feel that the presence of the social worker in the department has been most helpful, especially in gaining the confidence and coöperation of the patient and the family.

The Social Service Department has done excellent work in the Gastro-enterological Department and has proved of great service in the securing of results that could not otherwise be obtained.

One of the prime essentials for the medical handling of this group of diseases lies in the proper use of dietetics. To this end it is advisable that the social service worker assigned to this department should be, preferably, a trained dietitian, or at least familiar with the fundamental principles of dietetics.

Until the social service came into this field it was impossible to see that the diets prescribed for patients were properly carried out after their departure from the Hospital. Now, it is the duty of the social dietitian, after being notified by the physicians in the Dispensary that a diet has been ordered, and being informed as to what the diet is to consist of, to

visit the home of the patient and to see that directions are properly carried out, not only as regards the kind of food, but also as to how it is to be prepared. To avoid any misunderstanding a series of printed diet lists are being prepared in the following languages: English, German, Italian and Hebrew, together with a printed list of formulas designed to cover the preparation of all foods contained in the various diets.

The social service worker sees that prescribed medicines are being taken and also gives instructions to the housewife in regard to the economic values of food, and in this way provides for the proper expenditure of the family income allotted for this purpose. The report of each visit is filed with the copy of the case history.

It has been gratifying to see the appreciation on the part of the patients for this interest in the family welfare, and in nearly every instance a cordial coöperation has been secured between the clinic and the home, which has materially increased the success of the work.

In June, 1915, the Social Service Department at the Department for Diseases of the Chest placed forty patients in sanatoria, hospitals and country places, because it was necessary to close the wards for the summer, due to lack of funds. This deplorable condition made it particularly difficult for the social workers, as the city has but four institutions receiving a limited number of tuberculous patients free. The work of the dispensary continued in the field and home, families receiving relief, instruction in diet and hygiene and sanitation. Children were sent to the seashore homes and Country Week Association.

In September, 1915, the wards reopened and later a colored clinic was established. Through the organization of this clinic we have received the coöperation of St. Mary's Mission and the Association for the Protection of Colored Women.

A worker is present on clinic days in the Orthopedic Dispensary to render assistance to surgeons as requested. All new cases are investigated. Orthopedic appliances are sup-

plied and environment changed or patients are removed to convalescent homes if indicated to make a cure possible.

A worker devotes her entire time to the welfare of the children in the Pediatric Out-Patient Department and Ward. All children under two years are followed into their homes and the physician's instructions are carried out. The mothers are taught hygiene and the general care in the preparation of feeding formulae. In addition, the social problems are taken care of. Cases of vaginitis are given special care and followed until cured. Epileptics and mentally defective children are placed in institutions when the family is unable to care for them. Convalescent care and fresh air vacations are provided. Every child living near a playground is directed to make use of it. Children are placed in the Day Nurseries while the mothers are at work. Many families have been rehabilitated, homes kept together, and lives of babies saved through the work of this clinic.

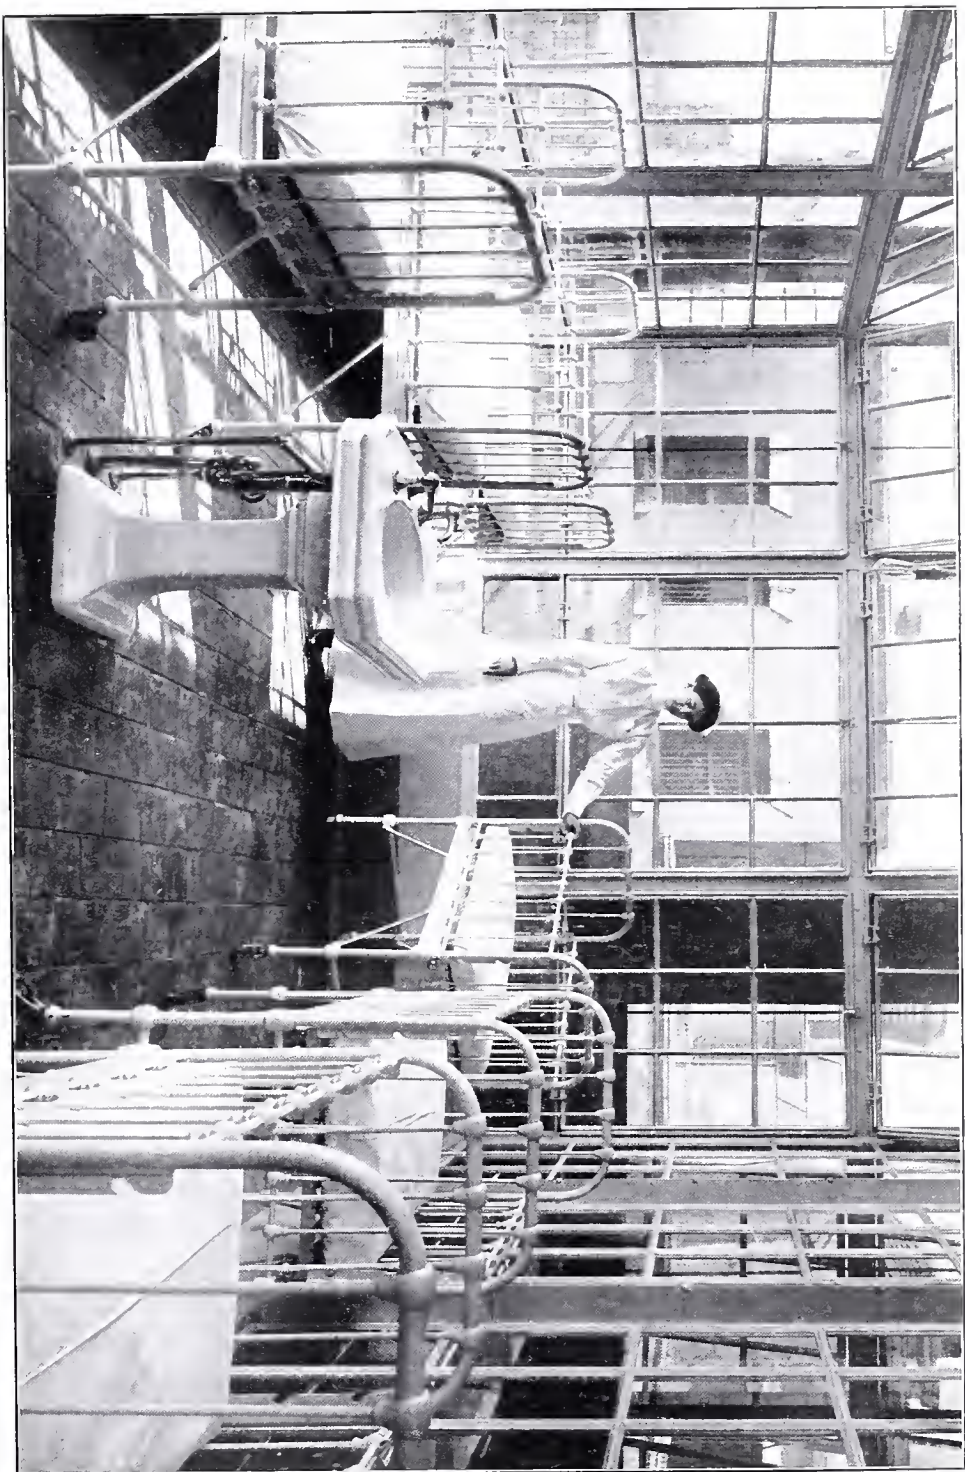

We gratefully acknowledge the splendid assistance we have had from the social organizations of the city who have coöperated with us. Also we acknowledge the great assistance rendered by both full time and part time volunteers.

### **Pressing Needs of the Department**

#### **1. Social workers at the Maternity Department.**

Due to the large number of cases referred to the general department it seems imperative that a special worker for this field of work should be supplied. The valuable work for infants and mothers could be done at a stage when most good is accomplished, prenatal instructions given and the proper care of infants taught. The numerous and complicated situations which arise in such a department where unmarried and deserted mothers appeal for advice require the attention of a specially trained social worker.

2. A permanent worker to take up and develop the work of the Orthopedic and Neurological clinics is needed.

## **The Needs of Jefferson Hospital**

It is earnestly hoped that by repeatedly bringing to the attention of the charitably inclined public the urgent needs of the Hospital that they will be provided for.

The Jefferson Hospital spends every penny of its income and has been doing so for forty years. Its only profit is its pride in the record of what it has been doing in relieving the miseries of humanity.

Would the reader join in assisting in the work of the Jefferson Hospital in any of its departments.

### **Hospital Mortgage**

Upon the hospital building which, including furnishings and equipment, cost a million and a half dollars, there is a debt of \$385,000, the interest of which constitutes a heavy fixed charge, and consequently a diversion of resources otherwise available for maintenance. It is the hope of the Board of Trustees that the charitably inclined will, by subscription, endowment or other benefactions, assist in lightening this burden.

### **New Maternity Building**

This Department is accomplishing a great amount of good under difficulties incident to crowding and insufficient space (see page 29). It is sincerely hoped that some benefactor, seeking an avenue through which he may do a great service to suffering humanity, may supply funds necessary for the construction and endowment of a modern, fully equipped department.

### **Department for Diseases of the Chest**

The Jefferson Hospital Tuberculosis Department admits only advanced cases of pulmonary tuberculosis. That there is definite need of this department of the hospital is evidenced by the many applications for admission and the constant large waiting list. The Department is now compelled to close the wards for the summer months because of lack of funds for maintenance. It is earnestly hoped that this appeal will come

to the notice of the charitably inclined who will give the necessary financial aid to maintain this department without interruption and thereby continue the absolute free care heretofore given to all deserving advanced cases of pulmonary tuberculosis.

Among the purposes for which endowments are desired are the following:

Social Service Department of the Hospital.

Rooms in the Hospital.

Any of the wards in the Hospital or beds therein.

Children's Department of the Hospital.

Nurses' Home.

Operating Rooms of the Hospital.

Laboratories of the Hospital.

X-Ray Department.

Dispensaries of the Hospital.

Departments of Research of the Hospital.

Convalescent care of patients.

The names of the benefactors are published in every annual Hospital report and further recorded by suitable bronze tablets erected in the Hospital.

# The Women's Auxiliary

MRS. ROBERT E. HARE, *Chairman*.

MRS. HOBART A. HARE, *Vice-Chairman*.

MRS. HORATIO GATES LLOYD, *Secretary*.

MRS. FRANK S. EVANS, *Treasurer*.

The Women's Auxiliary comprises four general committees—Hospital, Maternity, Nurses' Home and Social Service. The following reports have been submitted by the treasurer and chairmen of the respective sub-committees.

## Hospital Committee

MRS. ROBERT E. HARE, *Chairman*.

This committee is especially devoted to the welfare of the general hospital. The many details are entrusted to sub-committees, the members of which give personal attention to the public wards and roof-gardens, the children's ward and the private rooms.

## Sub-Committee on Public Wards

MRS. DOBSON ALTEMUS, *Chairman*.

MRS. WINFIELD S. ARTER,	MRS. H. F. HANSELL,
MRS. DANIEL BAUGH,	MRS. HOBART A. HARE,
MRS. GEORGE W. BOYD,	MRS. ROBERT E. HARE,
MRS. EDWARD L. BLABON,	MRS. MAHLON HUTCHINSON,
MRS. WALTER D. BLABON,	MRS. ALBA B. JOHNSON,

MRS. WILLIAM E. GOODMAN, JR.,	MRS. THOMAS MCCRAE,
MRS. EDWIN E. GRAHAM,	MISS EDITH PETERS,

MRS. JAMES M. REED,  
MRS. EDWARD A. SCHMIDT,  
MRS. S. MACCUEN SMITH,

MRS. JOSEPH W. WEAR,  
MRS. C. T. WERNWAG,  
MRS. ROLLIN H. WILBUR,  
MRS. J. BOLTON WINPENNY.

The wards throughout the year were filled with patients, and the excellent work of the Social Service Department and this committee render them much comfort and assistance.

Christmas and Easter were made attractive as usual. A sum was supplied in order to purchase presents for each patient and employee and red wreaths placed through the Hospital.

Easter morning a vase of flowers was given each ward patient; loose flowers used for private trays, and Easter lilies placed in the fern stands in corridors and reception halls, which during the year are filled with other seasonable plants.

The Roof-Garden furniture was repainted, new material for cushions supplied, and plants hired for summer months.

A donation of \$25 given by Mrs. C. T. Wernwag supplied privet hedge for Pneumonia ward and repainting of all rocking chairs.

The check for \$100 in memory of H. S. J., and \$25 from Mrs. Frank G. Kennedy, enabled us to transform the sun parlor and reception room; new furniture was purchased and attractive curtains for summer and winter use.

Through the kindness of Mrs. James M. Reed ice cream was sent the ward patients and flowers were sent by Mrs. J. Leslie Davis.

The rummage sale held in the Widener Building five days in April was a crowning success for Jefferson Hospital, each committee sharing the proceeds, which enabled us to pay all bills and buy much needed clothing.

### **Sub-Committee on Children's Ward**

MRS. SIMON GRATZ, *Chairman.*

MRS. DANIEL BAUGH,  
MRS. ANDREW C. CONNELLY,  
MISS ALICE GILPIN,  
MRS. EDWIN E. GRAHAM,  
MRS. ALBA B. JOHNSON,

MRS. ROBERT E. HARE,  
MRS. CHARLES M. LEA,  
MRS. PHILIPPUS W. MILLER,  
MISS ANNA J. MAGEE,  
MRS. ROLLIN H. WILBUR.

SECTION OF CHILDREN'S WARD

The Children's Ward, in which so much good work is done by our able physicians and good nurses, is one of the most interesting in the Hospital. It has cared for over nine hundred children during the past year.

The Committee of the Women's Auxiliary has supplied all the clothing worn by the children, comprising 693 garments. It has also provided 57 pairs of sandals, two rubber mattresses for the carriers and many gifts of toys and flowers. Ice-cream was given each day during the three summer months. Christmas was unusually enjoyable and we were able to provide a tree and give toys, candies and oranges to 45 dispensary children. Next year we hope to go still further and care for the children of the Throat and Chest Dispensary. The ward was decorated with plants at Easter and each child was given a toy.

Special thanks are due St. Stephen's Benevolent Society for making many dozens of garments. We thank, too, the many friends of the children for much of the success of the year's work.

### **Sub-Committee on Private Rooms**

MRS. ROLLIN H. WILBUR, *Chairman.*

MRS. J. HERON CROSMAN,

MRS. HOBART A. HARE,

MRS. MAHLON HUTCHINSON,

MRS. ROBERT E. HARE.

The steady demand for the Private Rooms continues, so do the reports from the patients as to their good equipment and service.

The diet-kitchen, at any time, reflects credit on all concerned and has been visited frequently by the committee. The china and the trays are very attractive, and cause much favorable comment. Several very distinguished patients have expressed themselves as greatly pleased with their hospital accommodations.

The sitting rooms have been beautifully done over under the supervision of Mrs. Altemus. New couch covers for the rooms have been ordered. At Christmas time a holly wreath was sent to each patient, and at Easter a pansy plant as greetings from the committee.

## Maternity Committee

MRS. EDWARD PARKER DAVIS, *Chairman.*

MRS. EDWARD H. WEIL, *Vice-Chairman.*

MRS. JAMES B. CORYELL, *Secretary.*

MRS. JOHN M. FISHER, *Treasurer.*

MRS. A. CRAWFORD ALLISON,

MRS. J. C. DACOSTA, JR.,

MRS. WARREN B. DAVIS,

MRS. JOHN H. GIBBON,

MRS. D. L. HEBARD,

MRS. JAMES S. ROGERS,

MRS. ALBERT H. ROSENGARTEN,

MRS. J. BOLTON WINPENNY,

MRS. W. FIELDING WILCOX,

MRS. C. WENDELL WOODWARD.

## Annual Report of the Secretary of the Maternity Committee of the Women's Auxiliary of Jefferson College and Hospital

The Women's Committee of the Maternity Department of Jefferson College and Hospital present their twenty-fourth annual report.

The work of the past year has been of such increased activity and over-crowding that beds for private patients were put in the wards, with screens around them, and the clinic table or any other available space made use of in order to supply the demands.

The Jefferson Maternity Hospital is becoming more and more a consultation hospital, and the lack of conveniences for the many operative cases make the work difficult. One hundred and five patients applied for admission in one month, but only twenty-one could be accommodated.

The Maternity was overcrowded during the summer, and in June, July, August and September three hundred and sixteen patients applied for admission, but only eighty-two could be taken care of.

The Pleasure Fund of \$25 for the benefit of the nurses working at the Maternity during the summer was given to the Chief Nurse. The Visiting Nurses were given the usual month's holiday in August, when substitutes were provided.

The Hospital very generously sent two large turkeys and other good things to the Maternity for Thanksgiving and

RECEPTION ROOM ON PRIVATE FLOOR

Christmas. The usual Christmas fund for the patients was provided by the Maternity Committee, and Christmas presents were bought for Miss Martin and her corps of nurses.

There has been an unusual showing in the earning capacity of the Maternity. The board money for one year amounted to \$1,608.76, and during one month it amounted to \$252, the second largest sum the Maternity has ever received in one month.

The work at the Dispensary is growing rapidly and the results are most gratifying.

Mrs. Paul Crompton resigned from the Maternity Committee at the April meeting of 1915, but, in spite of Mrs. Crompton's leaving for England, it was moved and seconded that her name be retained as an active member of the Maternity Committee. The terrible tragedy of the *Lusitania* cast a gloom over our May meeting, and we sincerely mourn the loss of Mrs. Crompton, who was untiring in her work for the Maternity and the Maternity Dispensary. Resolutions of sympathy were sent to the mother and mother-in-law of Mrs. Crompton, whose sad death and that of her husband and children touched the hearts of her friends here, and of many who had not enjoyed the privilege of knowing her. Mrs. Alba Johnson wrote to Mrs. Edward Parker Davis, Chairman of the Maternity Committee, offering to give \$1,000 towards a memorial bed to Mrs. Crompton if the Maternity Committee would raise the necessary \$4,000 to complete the sum needed. It was decided that the question of raising the rest of the required sum be submitted to each member of the Maternity Committee for her approval. We are glad to be able to report that the entire sum required for the memorial bed to Mrs. Crompton has been raised, due to the efforts of the committee and the generous coöperation of friends.

The work of the Dispensary goes on with constantly increasing service, and with great satisfaction to all concerned.

The requirements for graduation in Obstetrics have been advanced by the State Board of Pennsylvania, and it may become necessary to lodge four students at a time at the Dis-

pensary instead of two. With our limited accommodations the requirements of the State Board will tax our capacity to the utmost, but with the aid of the Dispensary and the loyal coöperation of our Staff we shall be able to meet these requirements.

MARY B. M. CORYELL,  
*Secretary.*

### **Nurses' Home Committee**

MRS. D. L. HEBARD, *Chairman.*

MISS ANNA J. MAGEE, *Vice-Chairman.*

MRS. WILLIAM E. GOODMAN, JR., *Secretary.*

MISS HELEN E. MAYER, *Treasurer.*

MRS. B. DOBSON ALTEMUS,  
MRS. EDWARD P. DAVIS,  
MRS. J. C. DACOSTA, JR.,  
MRS. SIMON GRATZ,  
MRS. HOWARD F. HANSELL,  
MISS ANNA J. MAGEE,

MRS. JOSEPH PRIESTLEY BUTTON,  
MRS. EDWARD H. WEIL,  
MRS. J. BOLTON WINPENNY,  
MRS. S. MACCUEEN SMITH,  
MRS. PERE WILMER,  
MRS. C. WENDELL WOODWARD.

Our annual meeting having been changed (since our last annual meeting in November) to May 1st of each year this report is from May 1, 1915, to May 1, 1916.

We have held during this year seven stated meetings (May, June, October, November, December, January and April) with a quorum attending in each instance.

At the January meeting the following officers were elected:

Mrs. Hebard, Chairman;  
Mrs. Weil, Vice-Chairman;  
Miss Mayer, Treasurer;  
Mrs. Goodman, Secretary,

but owing to the resignation of Mrs. Weil as Vice-Chairman Miss Magee was elected to take her place.

On May 20, 1915, we had our usual Commencement in the Hospital Amphitheatre. We had a graduating class of twenty-four Nurses, and sent out over five hundred invitations to this entertainment, and thanks to the ladies of our Board for the refreshments, music and decorations.

As in former years \$100 was spent on the Nurses' outing. Our interest in the Department for Diseases of the Chest still continues and Mrs. Wilmer (as chairman of this branch of our work) herself decorated this institution for Christmas and Easter with flowers becoming the season, and during this year we were able to furnish two dining room tables, eight dining room chairs and screens.

One new member has been added to our Board during the year, Mrs. Joseph Priestley Button.

The customary and familiar work of this committee was carried on as usual at Christmas time, and Mrs. Weil and Mrs. Gratz (as in former years) were most successful in their purchases of gifts for the Nurses.

The committee undertook to see that each gift was wrapped and marked separately for the Nurses, which resulted in giving each Nurse great pleasure.

This is the first year that the Nurses of the Social Service Department were not given gifts, as the members of the Social Service Board requested this privilege.

Miss McCleavey raised enough money herself to furnish the Nurses' Home with a hand vacuum cleaner, which we greatly needed.

#### Donations during the year:

Mr. Daniel Baugh.....	\$100.00
Mrs. Edward Maynard.....	70.00
Mrs. Edward H. Weil.....	25.00
Mrs. C. Wendell Woodward.....	10.00
Mrs. Joseph P. Button.....	25.00
Mrs. Simon Gratz.....	25.00

---

Total .....\$255.00

Contributions other than cash, Mrs. Joseph P. Button furnished Miss Melville's room with cretonne curtains and cretonne coverings for her furniture; also Mrs. Button gave the Nurses' sitting room a large chair. Through Mrs. D. L. Hebard the Nurses' sitting rooms were supplied with a chair and a sofa, and she also gave the Home two water coolers. Mrs. W. E. Goodman, Jr., had cretonne curtains and coverings put in the

Nurses' sitting room; also provided the walls with pictures. Our share of proceeds received from the rummage sale amounts to \$820.04.

The Treasurer reports in bank May 1, 1916, \$1,017.65.

We trust the next year's work will be even more successful.

### **Social Service Committee**

MRS. ALBA B. JOHNSON, *Chairman.*

MRS. HOWARD A. DAVIS, *Secretary.*

MRS. FRANKLIN BAKER, JR.,	MRS. FRANK G. KENNEDY, JR.,
MRS. DANIEL BAUGH,	MRS. EDWARD J. KLOPP,
MRS. WALTER BRYANT,	MRS. EDWARD J. LAVINO,
MRS. JOSEPH PRIESTLEY BUTTON,	MRS. WALTER LEE,
MRS. ANDREW C. CONNELLY,	MRS. DAVID LEWIS,
MISS MARY E. CONVERSE,	MRS. HORATIO GATES LLOYD,

MISS ANNE HINCHMAN,	MRS. EDWARD A. SCHMIDT,
MRS. HOLLISTER STURGES.	

The Social Service Committee which was organized in April, 1912, has until now existed as a sub-committee of the Hospital Committee. After four years, during which it passed through the experimental stage to an assured position as an important part of the Hospital forces, it has been made by the Trustees a separate Committee of the Women's Auxiliary.

During the last year the membership has grown from eighteen to thirty-one and the interest evinced has been most inspiring toward further effort and most helpful in its results.

A dietitian has been added to those whose salaries are guaranteed by this committee and the salary of the Secretary has been increased, so that we are now responsible for the workers in the Children's Dispensary, the Medical Dispensary, the Dietitian and the Secretary of the Department.

The work of the department has grown so enormously that it has seemed necessary to appoint sub-committees in order to handle more intelligently the various problems. The first thus appointed is the committee to take charge of convalescents with special reference to providing suitable places for them to recuperate after leaving the Hospital. There is at present no home for convalescent men in the neighborhood of Philadelphia. The women and children can be provided for, but there has been absolute lack of accommodation for men. Mrs. J. Priestley Button has been appointed Chairman of the Committee on Work for Convalescents and, a small beginning having been made by a woman desirous of helping such cases, we hope ere long to realize great things in this line. Our faith has always been justified and we have received more than we have dared to hope for, so that we are encouraged in our dream of a resting place, ideal in its building, surroundings and management, where those who leave the Hospital depressed from illness and without friends may gain health and new inspiration for active life.

## Report of the Treasurer

MAY 31, 1916.

*To the Jefferson Hospital Auxiliary:*

I herewith submit my report as Treasurer for the year ending May 31, 1916.

To balance on hand October 31, 1915.....	\$68.60
“ Cash from contributions.....	1,300.00
“ Cash from dues and fines.....	189.75
“ Interest on deposit November 1, 1915.....	1.80
“ Interest on deposit May 1, 1916.....	5.90
“ Cash from rummage sale.....	3,713.31
	<hr/>
Total cash receipts.....	\$5,279.36
Payments:	
Merchandise .....	\$618.73
Flowers .....	311.50
House of employment (sewing).....	18.20
Rummage sale.....	450.64
To Mrs. A. B. Johnson, ¼ rummage sale receipts.....	820.04
“ Mrs. A. B. Johnson, contribution from Mrs. J. P. Button .....	50.00
“ Miss Mayer, ¼ rummage sale receipts for Nurses’ Home .....	820.04
“ Miss Mayer, 1/16 of dues and fines for Nurses’ Home .....	11.67
“ Mrs. J. M. Fisher, ¼ rummage sale receipts for Maternity Department.....	820.04

	<hr/>
Total expenditures.....	\$3,932.53
	<hr/>
Balance cash in bank, May 31, 1916.....	\$1,346.83

Respectfully submitted,

GERTRUDE C. EVANS, *Treasurer.*

## **The Training School for Nurses**

The Training School for Nurses has been in successful operation for twenty-four years; at no time in its history has the school been more prosperous. The entire organization is under the direction of the Hospital Committee, to which, through the Medical Director, all matters of discipline and curriculum are brought for final consideration. Recognizing that proper teaching of the science and art of nursing can be best accomplished under the supervision of medical men, it has been provided that the course of study be formulated and directed by the Hospital Staff. For this purpose there is appointed annually a Committee of the Staff, known as the Training School Committee, consisting of six members, who outline the curriculum and designate the teachers of the separate branches.

The Directress of the Training School is the executive having immediate charge of the work done by the pupils; she supervises the practical instruction in wards, operating rooms, diet kitchen and in classes, for which purpose she is supplied adequate assistance. The Nurses' Home is under her immediate supervision, as is also the home life of the pupils in training and all her subordinates.

### **Course of Study**

The course of study is three years, during which time the Directress of the Training School assigns each pupil, for definite periods, to the various wards and services. Such practical training under skilled supervisors best applies the science and most adequately teaches the art. The course of study is modified and improved year by year, always with the idea of betterment. Like all other professional schools, changes are necessary for improvement; to stand still is retrogression. Each year new subjects are introduced or old ones taught in new and, it is believed, better ways. The curriculum embraces a probation term of three months, a junior term of nine months, an intermediate term of twelve months, and a senior

term of twelve months. Practical work is given each nurse in the following:\*

Men's and Women's Medical Wards.....	7 Months
Men's and Women's Surgical Wards.....	7 “
Children's Ward.....	4 “
Roof-garden and special details.....	1 “
Private Corridors.....	4 “
Accident Ward and Dispensaries.....	2 “
Operating Rooms.....	3 “
Maternity Department.....	3 “
Department Diseases of Chest.....	3 “
Diet Kitchen.....	2 “

Approximately six months of night duty are given in two or more terms, rarely exceeding three months each, distributed in the above services.

**First Year**

**INTRODUCTORY LECTURE**

THE MEDICAL DIRECTOR. The Duties, Obligations, and Responsibilities of the Trained Nurse.

**BACTERIOLOGY AND HYGIENE**

PROF. R. C. ROSENBERGER. General distribution of Bacteria, how bacteria produce diseases. Epidemics of Diseases due to dissemination by (1) Contact, (2) Water, (3) Milk, (4) Carriers, (5) Insects. Methods of obtaining Antitoxin and other sera, role of Vaccines. Disinfection by steam, hot air and chemicals. Dangers of dusts in various occupations.

**NURSING IN TUBERCULOSIS**

ELMER H. FUNK, M.D. Tuberculosis—Frequency of infection and mortality, predisposing factors, methods of spread of the disease. The Social problem and the Nurse's position in the anti-tuberculosis crusade. The manifestations of the disease—the special knowledge which a nurse should have to successfully attend tuberculous patients. The temperature, pulse, etc. The care of the patient—rest—fresh air—properly prepared diet. The principles underlying and methods of application of these measures. Prophylaxis. Methods of disposal of sputum, excreta and of disinfection of articles in contact with patient. Nursing in emergencies such as Pulmonary Hemorrhage, etc. The preparation for paracentesis of the Chest.

---

\*Subject to change without notice. The management at all times reserves the right to make such changes as may seem wise without notice to, or consent of the pupil.

## **ORTHOPEDIC SURGERY**

PROF. H. AUGUSTUS WILSON, M.D. Care of Feet and Correct Walking.

## **PRACTICAL NURSING**

**Thirty Classes**

## **DIETETICS**

**Four Demonstrations. Twelve Classes**

Responsibility of the nurse in ordering, preparing and serving nourishments and regular diets. Measuring, combining ingredients. Preparation of eggs, of beverages, of nourishments. General rules for diet kitchen work. Care of diet kitchen equipment. Care of trays, linen, china, glass and silver ware. Setting and serving trays. Food. Composition, classification and caloric value. Protein, fat, carbohydrate, mineral matter, water. Methods employed in cooking food. Meat—Demonstration of different cuts. Menus for patients on regular and special diets including color schemes. Metabolic diets.

## **MASSAGE**

MARY G. CORBIN. Twenty Demonstrations.

Recitations and demonstrations, including practical bedside work, are given by the Directress and her assistants.

## **Second Year**

## **GYNECOLOGY**

PROF. E. E. MONTGOMERY, M.D. Consequences and Sequelæ following Abdominal Operation.

PROF. JOHN M. FISHER, M.D. Two Lectures. Abdominal Operations.

P. BROOKE BLAND, M.D. Medical Gynecological Nursing. Nursing in Vaginal Operations.

ALFRED HEINEBERG, M.D. Two Lectures. Anatomy of Pelvic Organs.

## **DISEASES OF THE EYE**

PROF. WILLIAM M. SWEET, M.D. Anatomy of the Eye. Nursing in Diseases of the Eye.

## **DISEASES OF CHILDREN**

PROF. E. E. GRAHAM, M.D. Feeding in Infants and Children.

JULIUS BLECHSCHMIDT, M.D. Hygiene of the Nursery.

RALPH ENGLE, M.D. Nursing in Gastro-Intestinal and Respiratory Diseases.

JOSEPH FLEITAS, M.D. Nursing in Fevers and Contagious Diseases.

## **SURGERY**

DUNCAN L. DESPARD, M.D. Fractures, Dislocations, Sprains, Anesthesia, Splints.

## **SURGICAL NURSING**

Eight Demonstrations. Preparation of patient for Operation. Preparation of patient for Anesthesia. Instruments (Metal, Rubber, Silk, Glass, Illuminated), Preparation, Sterilization, Use and Care. Sterilizers and how to use them. Preparation of Special Binders, Bandages, Plaster Dressings, etc. Padding of Splints.

## **BANDAGING**

HUBLEY R. OWEN, M.D. Twelve Demonstrations.

## **ANATOMY AND PHYSIOLOGY**

E. J. KLOPP, M.D. Twenty Lectures. Anatomy and Physiology of the Human Body.

## **MATERIA MEDICA**

LEIGHTON F. APPLEMAN, M.D. Drugs: Their Proper Names, Sources and Active Principles. Pharmaceutical Preparation of Drugs with their Definition and General Uses. Dosage and Methods of Administering Drugs. Physiological Actions of Drugs. Poisons; the Treatment of Poisoning. Counter Irritation. Hydrotherapy. Antitoxins; their Uses. Vaccines and their Applications. Review. Materia Medica. Twelve Classes.

Recitations and demonstrations, including practical bedside work, are given by the Directress and her assistants.

## **Third Year**

### **SURGICAL NURSING**

PROF. J. CHALMERS DAcOSTA, M.D. Two Lectures. Instruments and their uses.

WARREN B. DAVIS, M.D. Four Lectures. Hemorrhage, Wounds and Burns. Shock, Treatment of Shock. Bites of Dogs, Insects and Snakes. Drowning. Asphyxia. First Aid to the Injured.

### **SURGICAL AND OPERATING ROOM TECHNIC**

R. B. PRATT, M.D. Fifteen Classes.

### **OBSTETRIC NURSING**

PROF. EDWARD P. DAVIS, M.D. Obstetric Nursing in Private Houses; Complications of Pregnancy, Abortion, Eclampsia, Hemorrhage. Signs and Symptoms of Labor; Preparation of the Patient and her Room; the duties of the Nurse during Spontaneous Labor.

COLLIN FOULKROD, M.D. Obstetrics, Antisepsis and Asepsis; Signs, Symptoms and Treatment of Post-Partum Hemorrhage. Duties of the Nurse during Obstetric Operations; the Sterilization of Instruments, Dressings, Field of Operation, Operating Tables, the Posture of the Patient; the Anesthetist; Shock and Hemorrhage.

GEORGE A. ULRICH, M.D. The Normal Puerperal State. Complications arising during the Puerperal State for Mother and Child. The Infant, its Food and Dress. Bathing, Exercise, Development and Weaning.

## **OBSTETRIC NURSING**

### **Five Classes**

#### **NURSING IN GENITO-URINARY DISEASES**

PROF. HIRAM R. LOUX, M.D. Nursing in Venereal Diseases; Methods to be adopted in Order to Prevent Contagion. Urethral Instruments, Care, Sterilization and Uses. Retention of Urine; Causes, Symptoms and Treatment. Uremia; Causes, Symptoms and Treatment. Hematuria; Causes, Treatment. Catheterism.

D. M. DRY, M.D. Normal Urine. Deviations from the normal to be noted by the Nurse. Proper Method for collecting samples for Examination. Simple Emergency tests.

#### **FEVER NURSING**

FREDERICK J. KALTEYER, M.D. Seven Lectures.

ROSS V. PATTERSON, M.D. Cardiac and Pulmonary Diseases.

## **MEDICAL NURSING**

### **Sixteen Classes**

#### **DISEASES OF THE THROAT**

PROF. D. BRADEN KYLE, M.D. Two Lectures. Care of Accident Cases and of Surgical Proceedings involving the Nose, Throat and Larynx.

#### **DISEASES OF THE EAR**

PROF. S. MACCUEEN SMITH, M.D. Anatomy of the Ear

E. L. KLOPP, M.D. Diseases of Middle Ear and Mastoid arising from acute infective diseases.

#### **DISEASES OF SKIN**

HENRY K. GASKILL, M.D. Anatomy of the Skin. Suggestions on the care of Diseases of the Skin.

#### **DISEASES OF NERVOUS SYSTEM**

GEORGE E. PRICE, M.D. Nursing in Organic Nervous Diseases. Nursing in Insanity. Nursing in Functional Nervous Diseases.

#### **DISEASES OF JOINTS AND APPLICATION OF PLASTER BANDAGES**

ARTHUR J. DAVIDSON, M.D. Two Lectures.

Frequent recitations and demonstrations, including practical bedside work, are given by the Directress and her assistants.

During the year just ended twenty-three nurses completed the course, graduating at Commencement held on May eleventh. The number of graduates is now three hundred and eighty-one.

During the year 561 inquiries were received and 165 applications were filed. The school census follows:

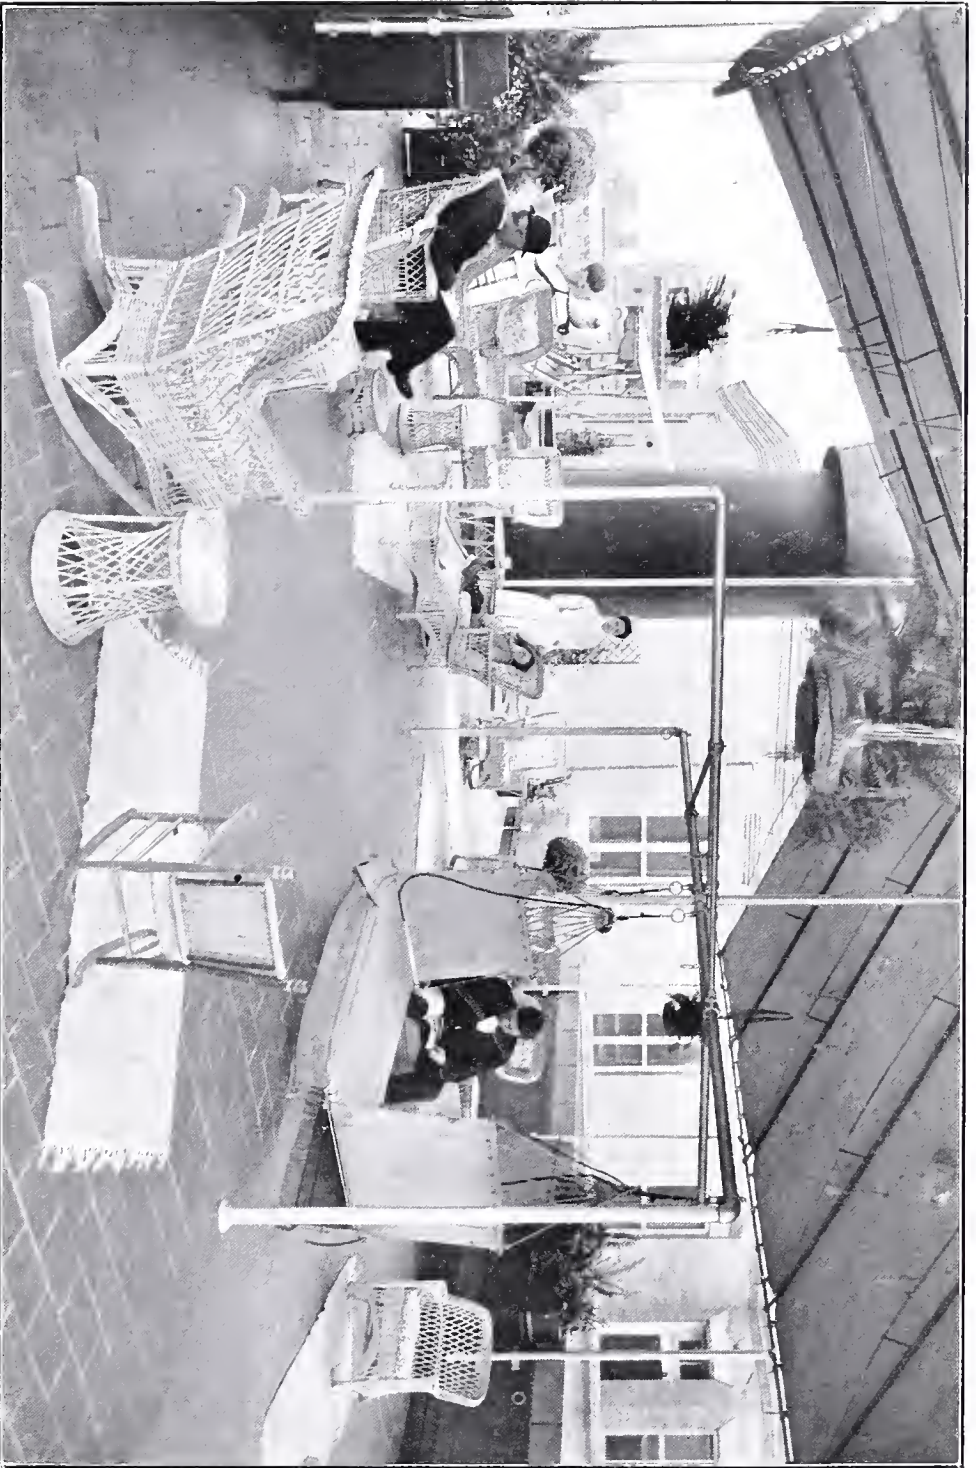

Pupil nurses and probationers, June 1, 1915.....	110
Graduated .....	24
Resigned and rejected.....	40
Admitted .....	63
Pupil nurses and probationers, May 31, 1916.....	110

## Nurses' Home

The Nurses' Home, in addition to the dormitories, provides recitation, recreation, reading and reception rooms. Under proper regulations nurses are permitted to see and entertain their friends, enjoy social evenings, and every effort is made to secure something of home life and the pleasures of congenial companionship. A Committee of the Women's Auxiliary regularly visits the Home, provides comforts, and looks after the general welfare of the pupils. The social features of last Commencement were entirely under the direction of the Nurses' Home Committee of the Women's Auxiliary, to whom all were indebted for a most enjoyable occasion.

A Register of the Graduates of the Nurses' Training School is kept in the office of the Directress, and nurses are supplied on application by telephone, mail or in person. Alumnae are requested to keep the Directress informed as to their addresses, and whether engaged in or desiring private or institutional nursing or administrative work.

Applicants for admission to the Training School should call upon or address the Directress of the Training School for Nurses, Jefferson Hospital.

ROOF-GARDEN FOR PRIVATE PATIENTS

Young People's Association of First Baptist Church, magazines.

Mr. V. Zauner, 15 pounds candy for children.

## **Gifts by Will**

In the State of Pennsylvania, testamentary provision for a charitable institution must be by a will made at least thirty days prior to the decease of the testator. The signature of the testator must be attested by at least two subscribing witnesses,\* who should sign their names as witnesses thereto in the presence of the testator and of each other.

None of these witnesses should be interested in any manner in the institution intended to be benefited, as manager, trustee, officer, employee, beneficiary or otherwise.

The testator may either bequeath personal property or devise real estate to the institution generally, or may create an endowment whereby only the income therefrom shall be used for its benefit.

The following forms are suggested for a legacy of personal property and a devise of real estate, where it is intended that the same shall be devoted to the use of the Hospital generally without restriction:

### **FORM OF BEQUEST OF PERSONAL ESTATE**

I give and bequeath unto THE JEFFERSON MEDICAL COLLEGE, of Philadelphia, for the maintenance, extension or betterment of its Hospital Department, the sum of..... dollars.

### **FORM OF DEVISE OF REAL ESTATE**

I give and devise unto THE JEFFERSON MEDICAL COLLEGE, of Philadelphia, its successors and assigns, for the maintenance, extension or betterment of its Hospital Department (here describe the property).

If the testator shall desire to limit the use of the legacy or devise to a particular purpose, the following forms are suggested. Such purpose can be indicated by suitable designation to be added after the words "Hospital Department."

### **FORM OF BEQUEST OF PERSONAL PROPERTY**

I give and bequeath unto THE JEFFERSON MEDICAL COLLEGE, of Philadelphia, for the benefit of its Hospital Department (here indicate the purpose) the sum of..... dollars.

### **FORM OF DEVISE OF REAL ESTATE**

I give and devise unto THE JEFFERSON MEDICAL COLLEGE, of Philadelphia, its successors and assigns, for the benefit of its Hospital Department (here indicate the purpose) (here describe the property).

If the testator shall desire that the legacy or devise shall create or form part of an endowment for a general or a special purpose, and only the income thereof be used for the benefit of the Hospital, the following forms may be found helpful. The purpose desired can be added after the words "for the endowment of."

### **FORM OF BEQUEST OF PERSONAL PROPERTY**

I give and bequeath unto THE JEFFERSON MEDICAL COLLEGE, of Philadelphia, the sum of . . . . . dollars for the endowment of

### **FORM OF DEVISE OF REAL ESTATE**

I give and devise unto THE JEFFERSON MEDICAL COLLEGE, of Philadelphia, its successors and assigns (here describe the property) for the endowment of

Among the purposes for which endowments are desired are the following:

Hospital Department.

Rooms in the Hospital.

Any of the Wards of the Hospital Department and beds therein.

Maternity Department of the Hospital and rooms, wards and beds therein.

Children's Department of the Hospital and beds therein.

Social Service of the Hospital Department.

Operating Rooms in the Hospital.

Laboratories in the Hospital.

Departments of Research in the Hospital.

Dispensaries in the Hospital.

Building Fund of the Hospital.

Department for Diseases of the Chest.

Convalescent Care of Patients.

Nurses' Home.

If the testator shall desire to benefit the Hospital Department and to limit the use of the legacy or devise to a particular purpose, the following forms are suggested:

#### **FORM OF BEQUEST OF PERSONAL PROPERTY**

I give and bequeath unto THE JEFFERSON MEDICAL COLLEGE, of Philadelphia (Hospital Department) (here indicate the purpose), the sum of.....dollars.

#### **FORM OF DEVISE OF REAL ESTATE**

I give and devise unto THE JEFFERSON MEDICAL COLLEGE, of Philadelphia, its successors and assigns (Hospital Department) (here indicate the purpose) (here describe the property).

If the testator shall desire that the legacy or devise shall create or form part of an endowment for a general or a special purpose, and only the income thereof be used for the benefit of the Hospital, the following forms may be found helpful. The purpose desired can be added after the words "for the endowment of."

#### **FORM OF BEQUEST OF PERSONAL PROPERTY**

I give and bequeath unto THE JEFFERSON MEDICAL COLLEGE, of Philadelphia (Hospital Department), the sum of .....dollars for the endowment of

#### **FORM OF DEVISE OF REAL ESTATE**

I give and devise unto THE JEFFERSON MEDICAL COLLEGE, of Philadelphia, its successors and assigns (Hospital Department) (here describe the property), for the endowment of
